Our Mission

To build largest customer interface nationwide

With our practical business models and easy to approach perspective, we aim at being a globally admired company for meeting nation's demand for fuel most responsibly at one end along with fuelling nation's growth at the other.

We aim at delivering best energy fuel for commercial, domestic and industrial uses most responsibly and affordably to our customers.

Infrastructure Capabilities

Committed to Customer service

We are equipped with world class infrastructure and cutting-edge technology at our bottling plants unit to fulfil the needs for customised fuel supplies. Our plants are working at a capacity of 5000 cylinders per day. The company installs bottling plants conforming to latest LPG guidelines as practised in the country. All the plants are designed in accordance with PESO norms and guidelines as laid down by the Ministry of Commerce and Industry, India.

Over the years in the market, we have been able to develop a robust infrastructure consisting of import terminals, filling plants, depots at multi strategic locations, delivery vehicles to assure every individual continuous, quick and timely supply of LPG. Our infrastructures are regularly upgraded with additional capacities to meet the ever growing demands.

Our Products and Services

As a responsible corporate entity, Indira Gas and Petroleum delivers the precious LPG to thousands of families nation-wide overcoming the tough challenges of climate and accessibility

- We deal in domestic and commercial Liquefied Petroleum Gas (LPG). We are aimed at providing energy fuel products at very competitive prices through our huge supply and distribution network comprising of Authorised Distributors.
- We sell multi sized and weighted cylinders in the open market and refill such cylinders through legally registered and authorised distributors at very reasonable and affordable prices compared with govt. operated and authorised refilling stations Indira Gas and Petroleum LPG is packed and sold in I've main capacities of cylinders namely:
 - Compact 4 kg cylinders for rural, hilly and inaccessible areas.
 - Indira Gas has developed its reputation in offering composite LPG cylinders that are extremely light weight and 100% safe.
 - 12 & 15 kg cylinders for domestic use.
 - 17 kg for commercial and industrial use.

All our services are accredited with prompt delivery and reliability standards.

- Bulk LPG
- Auto LPG

Our Cylinders

We use high quality aluminium, steel and mixed alloy for making and developing gas cylinders. Various factors on which the selection of the kind of metal used in manufacturing these cylinders depends are:-

- Mechanical power
- Protection and Resistance capacity
- Impact resistance
- Spillage
- Pilferage

LPG is stored in especially designed storage tanks having high tensile strength and durability. Our packaging is available in convenient sizes ranging from 4Kg to 17 Kg for application in various entities. Our experience

In our mission to achieve nationwide distribution, we are looking at distribution partners who will join us in our mission by collaborating to deliver superior product and customer service to the consumers.

Our Business Model

Gas will be supplied to the consumer to the authorized area wise Distributor/Dealer. The distributor/C&F will facilitate the supply to the dealer by company by providing the godown, logistic etc. Distributor/Dealer will be authorized to supply LPG of Indira Gas and Petroleum to Retailer.

The Dealer will be in direct coordination with the Company and will be taking bookings for the gas connections directly from consumers such as Domestic Users or Commercial Users in his defined region. The Dealer will have to ensure the transfer and exchange of Empty/Reilled cylinders from the Go down of the Centre Warehouse to its own. He will also be responsible to ensure the availability of sufficient logistics at his end to deliver and pick up empty/Filled Cylinders from the customer End. He must also take out necessary statutory licenses & safety measures with our support to purchase, store and operate the business of LPG in confirmation to the requirements of concerned legal and governmental bodies.

Be an entrepreneur and Start your own venture

Apply for the distribuion rights as soon a s possible and get your registered license!
